

## Dry Bulk Transload

J.P. Donmoyer brings over seventy five years of dry bulk transportation experience to merge the benefits of ground and rail capabilities. Through a partnership with Genesee & Wyoming, JPD is able to offer Transload capabilities throughout the Northeastern United States and Canada.

Services include the Transload from pneumatic dry bulk tankers to and from rail cars, on site storage capabilities as well as the exclusive patented BINs™ Bulk Inventory Networking System for the dry bulk inventory management transportation needs.

Contact us at [Transload@jpdonmoyer.com](mailto:Transload@jpdonmoyer.com) to discuss a Transload program tailored to meet your specific rail/ground needs.

Also visit [Rail Link](#) or Genesee & Wyoming at [www.gwrr.com](http://www.gwrr.com) to view their extensive railroad network available to support our Transload partnership

Genesee & Wyoming Inc. is a short-line railroad holding company that owns or maintains interests in 47 railroads throughout six countries (the United States, Canada, Bolivia, Australia, Mexico, and Netherlands), and operates more than 5,700 miles (9,200 km) of owned and leased track, with an additional more than 3,500 miles (5,600 km) under track-access arrangements
