

J.P. DONMOYER INC.

Dry Bulk Pneumatic

Donmoyer Pneumatic Does More!

Our Central Pennsylvania and Maryland terminals provide daily pneumatic tank services **twenty-four hours per day** throughout the Mid Atlantic, Southern, New England, Central U.S. Regions and Canada.

- **Founded 1934**, one of the longest operating carriers in Pennsylvania, to provide you over Seventy Years of Transportation experience
- **Modern Fleet**, average tractor age of 2.5 years with on-site garages to provide reliable and State of the Art equipment to meet and or exceed your transportation needs
- **Onboard Computer Communications** to provide constant contact with drivers to provide dependent delivery status throughout the transportation process
- **Inventory Control Process** to provide consistent reliable inventory levels 24/7 directly exclusively by J.P. Donmoyer via our Patented BINS™ Bulk Inventory Networking System.
- **Satellite Tracking** to provide continual location status and projected Estimated Time of Arrival even prior to pickup from shipper until to actual delivery to the customer site
- **ISO 9001 Certified** for over a Decade, the first transportation carrier in Pennsylvania to become ISO, to provide a reliable documented pro-active process to ensure service excellence
- **Commodity Matrix Procedures** designed in-house to provide a clean transportation environment, contaminate-free delivery of your product to your customer
- **Customized Data Flow** to provide custom reporting of service, tracking of product, POD response, electronic paperless billing, and a host of seamless order entry applications
- **Computerized Dispatch Processes** that integrate data flows throughout the transportation process from order entry through delivery and beyond

This is our patented process for remote monitoring of dry bulk commodities; which is a hardware and software approach, developed in-house, allowing J.P. Donmoyer to successfully monitor, order product, and conduct the transportation of critical bulk commodities for major manufacturers, processors, and utilities throughout Pennsylvania, Maryland, and New Jersey.
